

## INTERNATIONAL SERVICE

Hatfield Process Service partners with a prominent international litigation support firm to provide expert consulting in the area of international service of process. We can advise you on the exact procedures you're required to follow to obtain proper service upon defendants in almost any country in the world.

Service upon foreign defendants routinely implicates multi-lateral treaties such as the *Hague Service Convention* and the *Inter-American Convention on Letters Rogatory and Additional Protocol*. In addition to responding to technical questions regarding the proper application of these treaties, we provide:

- **Translation** of complaints, financial statements, contracts, technical patents and business documentation for submission to US courts and judicial authorities worldwide.
- **Evidence-taking** in foreign countries through the *Hague Convention on the Taking of Evidence Abroad in Civil or Commercial Matters of 1970* and other formal channels. Assistance in compelling the appearance of reluctant witnesses and in arranging voluntary and informal depositions to be taken overseas in compliance with US and foreign law.
- In-country **court reporters, videographers, court-certified interpreters and interpreting equipment** for depositions and hearings. Assistance in arranging **telephone and videoconference depositions** where permitted by foreign law. **Transcription** of foreign depositions, including transcription of tapes entirely in English. **Document production management** including abstracting and indexing of foreign language documents.
- **Legal certification and authentication** of documents to be filed domestically or overseas in compliance with the *Hague Convention Abolishing the Requirement of Legalisation for Foreign Public Documents of 1961* or other foreign rules.
- Consulting on **enforcement** issues by our in-house staff and our international network of attorneys.

Please feel free to contact us at 816.842.9800 for a free, no-obligation consultation.
